## Autoneum presents medium-term financial targets at media and financial analysts brunch

---

**At today's media and financial analysts brunch in Winterthur, Autoneum will be presenting an insight into current market trends and the Company's strategic focus in the areas of electromobility and sustainability, as well as an outlook on its medium-term financial targets.**

In addition to current market expectations and trends in the automotive industry, the focus will be on Autoneum's activities and growth potential in the areas of e-mobility and sustainability. Matthias Holzammer, CEO, and other experts of the Company will present Autoneum's latest developments with regard to New Mobility and sustainable product innovations as well as their strategic classification. CFO Bernhard Wiehl will also present Autoneum's new medium-term financial targets.

Based on the further expansion of the portfolio with sustainable products and new applications for e-vehicles as well as the increase in market share with existing and new customers, particularly in Asia, the Company expects a profitable revenue growth at market level in the medium term. Based on the expected revenue development, further progress in the turnaround of North America as well as the consistently practiced operational excellence in all business areas, Autoneum targets an EBITDA margin of 13% in the medium term. Accordingly, a solid free cash flow in the amount of 6% of revenue and a further increase in the equity ratio to over 35% are targeted. The Company still intends to pay a dividend to shareholders of at least 30% of the profit attributable to Autoneum shareholders.
